## **3. Action Plans with a pending result (monitoring continues)**

### **3.1 EI Active claimants in the process of meeting 12 week-25% rule**

We determine an active claimant to be in the process of meeting the 12 week-25% rule when he/she currently fails the rule (Result Week = 0) and the end of benefit period hasn't been reached yet, therefore it is still possible to attain a success.

#### **3.1.1 Employed Result generated by the 12 week-25% rule when there is no result entered in the Action Plans**

### **3.2 Former EI Claimants with an opened action plan**

We deem a client's action plan to be in follow-up status based on the following criteria:

- Action plan meets the definition of former claimants
- Action plan has a Result date of missing
- the end date of the last intervention in the action plan falls within a year of the beginning of the reporting period OR if the end date of the last intervention is missing and the start date falls within two years of the beginning of the reporting period

### **3.3 Non-insured (CRF) Clients with an opened action plan**

We determine the action plan to be still in follow-up status based on the following criteria:

- Action plan has an EI status of Non-insured
- Action plan has a Result date of missing
- the end date of the last intervention in the action plan falls within a year of the beginning of the reporting period OR

if the end date of the last intervention is missing and the start date falls within two years of the beginning of the reporting period

### **3.4 Former EI Claimant with a Result of Not Declared and a value in Result Date**

If the clients' action plan is a Former claimant and has a Result of Not Declared with a Result Date within the reporting fiscal year we consider it to be pending; the criteria is as follows:

- Action plan meets the definition of former claimants
